REPORT OF TRUSTEES OF GALE LIBRARY

Trustees of Gale Library this year, in their responsibilities to provide townspeople with the best possible services and attain the goal set by the library officials within the state, have hired an assistant librarian.

We were fortunate to acquire Mrs. Marjorie Moisan for the position. She is on duty primarily on Mondays, but at other times when requested by the librarian, Mrs. A. Marian Hatch. She has proven to be energetic, capable and desirous to be of assistance to patrons. She plans to take library courses offered through the University of N. H. Extension Service when they become available, one of the requirements specified by the State Library Commission.

We have, for improvements, acquired aluminum storm windows to help cut down on heating costs, also had the library floor refinished.

We are indebted to many kind friends for donations of books for circulation, to 'Friends of the Library' for volunteer services of assistance to the librarians, and to state library officials for their advice, guidance and professional help.

Donald P. Wright gave a \$100 memorial gift for the purchase of books in memory of Mrs. Inez Wright, one of the library's greatest friends. We also received another \$100 allotment from the State Library for the purchase of reference books. We have also already received another \$100 for purchase of reference materials during 1970.

The Bookmobile continues to provide a large selection of books every other month for the patrons enjoyment and education. All library officials, state and local, endeavor to provide the types of books requested. It is a big responsibility in a small community.

Mrs. Ella Yates, trustee, still represents this library at the Advisory Council of the Southeast District of the State-wide Library Development Program. Four meetings are held during each year at Derry. Committees meet intermittently whenever necessary. She has been appointed to serve on a committee to consider future programs or projects.

Library officials are gratified that newcomers to town are patronizing the library and will endeavor to meet the requests and needs of all. Whatever we may be lacking is obtainable if you but ask us to acquire it for you, if not by purchase, through borrow from the State Library or its branch office in Exeter.

Your appreciation of the library and its services is determined by your use of them. What do you suppose your rating is?

Clifford R. Bryer, chairman.
Edna F. Boyd, secretary
Ella M. Yates, treasurer

REPORT OF THE FOREST FIRE WARDEN AND DISTRICT CHIEF

Less fortunate than our northern towns, we had too many fires. Carelessness in burning trash and discarding smoking material and children playing with fire caused most of the fires. Your Forest Fire Warden's job would be easier if everyone understood the State laws that govern the kindling of outdoor fires. A synopsis of these laws follow:

FIRE PERMIT

A fire permit is needed for all outdoor fires in or near woodland anytime the ground is not covered with snow. This includes household waste burning, even if in an incinerator, grass burning, garden trash as well as brush burning. Such burning is restricted by regulation to be prior to 9:00 a.m. and after 5:00 p.m.

EXCEPTIONS

Commercial or industrial burning is allowed anytime

under normal conditions with permission of the District Chief and a permit from the Fire Warden.

Camp or cooking fires are allowed on your own property with permission of the Fire Warden. On another's property with written permission of the landowner and permission of the Fire Warden. The Warden can forbid such fires if in a hazardous area. Permits for cooking fires in the White Mountain National Forest can be obtained from the Laconia office or at the Ranger Stations. Permits are not required in public camp or picnic grounds where fireplaces have been built for this purpose.

PENALTIES

1. For kindling a fire without a permit. Maximum of \$200 fine; or imprisonment for not more than 60 days.
2. For kindling a fire by any means wilfully or recklessly that shall endanger woodlands the maximum fine is \$500 or one year's imprisonment.
3. For failure to totally extinguish a camp or cooking fire before leaving it the same penalties as in (1) above.
4. For dropping inflammable material in or near woodland, Maximum fine is \$25.00.

Fire prevention is a personal matter and a good habit. Keep our town free from smokes in 1970.

REPORT OF THE NEWTON CONSERVATION COMMISSION — 1969

The Conservation Commission has completed it's third year of existence with a growing awareness of its responsibilities to the town of Newton for the preservation of its natural resources, its rural beauty and its historical documents. The President of the United States has directed the whole country to begin programs to help with environmental control and to repair the damage already done to our natural resources through pollution and waste. Toward this end the Conservation Commission has rededicated its efforts.

The highlight of this year's activities was the acquisition of a Hayford carriage, made at the turn of the century in Newton, through the work of Mrs. Roland Rogers and Mrs. James Corton. The carriage was displayed at Town Meeting and shares in it were purchased by the people of Newton. The majority of this year's appropriation went toward the purchase of aerial photographs of the Town from which maps will be made to index open land available for urban use, or that which should remain in a natural state for pollution control, future water supplies, wildlife protection and scenic areas.

The street tree replacement program was begun this year with flowering crabs as the choice of tree because of its beauty, hardiness and medium height characteristics. Many more than funds were available for were requested by townspeople, but hopefully this program can be expanded in the future. One hundred autumn olive bushes were planted and mulched by Commission members on Thornell Rd. as an erosion control and as an enhancement of the natural beauty of the area.

Clean-Up Week was sponsored by the Commission this year as a community effort involving many youth organizations of Newton.

The Commission has entered into an agreement with the Selectmen, as provided by state law, that any money appropriated by the town or given by individuals for the use of the Conservation Commission may be held in an account until they are needed and not turned back to the town yearly. This will enable the Commission to increase its holdings and apply for matching funds from state and federal agencies and also to have immediate money available for land

acquisition or surveying if it is deemed that such land is indispensable to the future protection of the town. From the \$75.00 appropriated at the 1969 Town Meeting, \$28.00 were spent on trees and shrubs and the remainder on aerial photographs.

The Commission would like to stress the fact in 1970 that our hands and minds are tools for the use of the citizens of Newton. We hope you will join with us in suggestions for future conservation projects, work with us financially and manually in carrying these out and care about the future and past of Newton.

REPORT OF THE DOG OFFICER

I wish to extend my thanks to the people of Newton for the co-operation they have extended which made the job of Dog Officer much easier.

Since I took the job on October 19th I have picked up one cat and twelve dogs of which six were reclaimed by their owners. I also have answered about 50 calls on complaints and 30 calls reporting lost dogs or cats. Unfortunately I have also picked up four dogs that were struck and killed by cars.

I spent \$9.87 on 75 lbs. of dog food for unclaimed dogs from October 19 to December 31.

Thank you,

John F. Page, Dog Officer

REPORT OF THE NEWTON PLANNING BOARD

In the year 1969, the activities of the Planning Board were concentrated primarily on reviewing plot plans and sub-division plans that were submitted to the Board.

Enforcement of the Laws for recording plot plans by the Registra of Deeds at Exeter has made it necessary that the Planning Board review all plot plans prior to their recording. In future years, persons involved in searching titles and examining recorded plot plans will be thankful for the labors of the present Planning Boards.

Final reviews and corrections to the long awaited Master Plan for the Town of Newton were made in mid 1969. Delivery of the complete Master Plan is expected early in 1970. Many hours were spent in reviewing and revising the proposed Zoning Ordinance. After required public notice, and hearings proposed Zoning Ordinance with corrections will be presented to the town for a public vote of approval at the regular election in March 1970.

William L. Hart, Chairman
